

Dr Stela Filipi Matutinović
Aleksandra Popović, Oja Krinulović

**Electronic information in the
University Library
“Svetozar Marković”
and the changes they caused**

Major changes 1988-2005

- ❖ 1988 - Establishment of the shared cataloguing in Yugoslavia, UL included
- ❖ 1992 - Break of communications, UL continues to work on local e-catalogue
- ❖ 1995 - Internet introduced, first web page for the UL created
- ❖ 2000 - OSI helps to introduce first e-journals in Serbia, UL included

Major changes 1988-2005

- ❖ 2001 - Project “Virtual Library of Serbia”
- ❖ 2002 – Tempus project “Building cooperative academic library network in Serbia”, UL coordinating the project
- ❖ 2002 - Project “Consortium for coordinated acquisition” (3.000 e-journals), UL one of founders

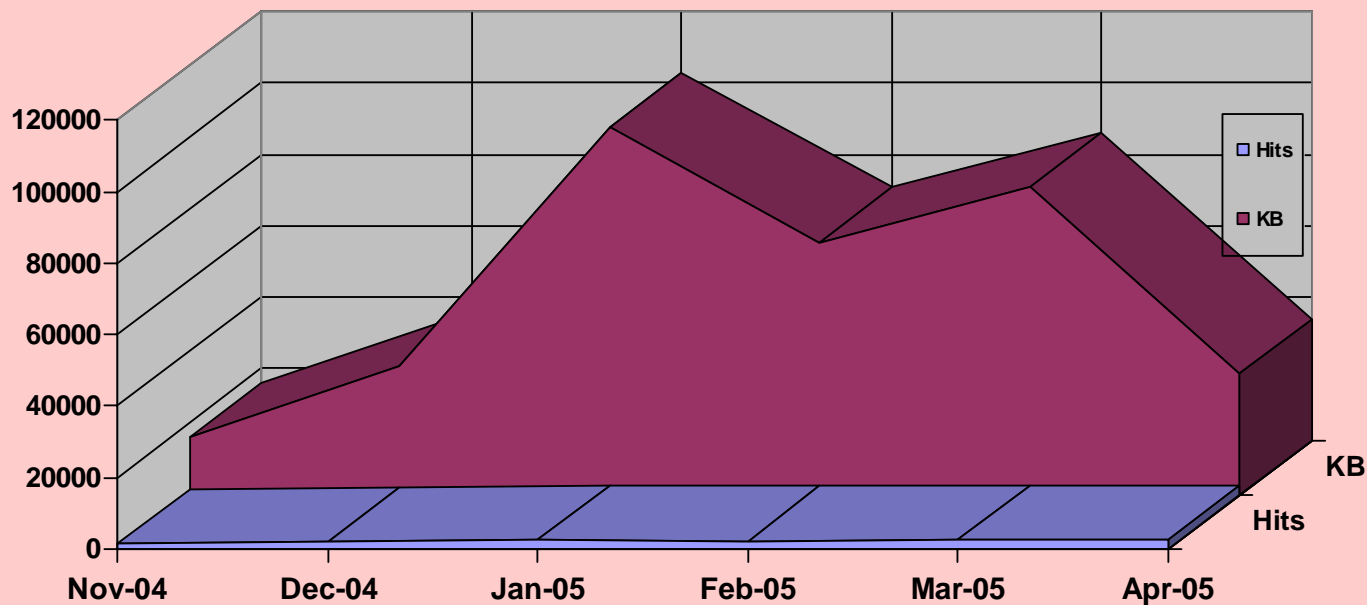

Major changes 1988-2005

- ❖ 2003 - Establishment of shared cataloguing system in Serbia, UL one of founders
- ❖ 2004 – New UL web site www.unilib.bg.ac.yu
more than 600,000 downloaded articles
- ❖ 2005 - 14.000 e-journals and 40 databases
available in Serbia for Consortium members
- ❖ 2005 - Regional data exchange COBISS.Net

Education of librarians and users

- From 2001 : regular courses in UL for librarians in academic libraries
- From 2004 : regular courses for teachers and researchers from the academic institutions
- From 2004: Production of educational materials for library users available in the University Library and on the web site, concerning all available electronic services

Monthly use statistics of the educational materials on the UL web site

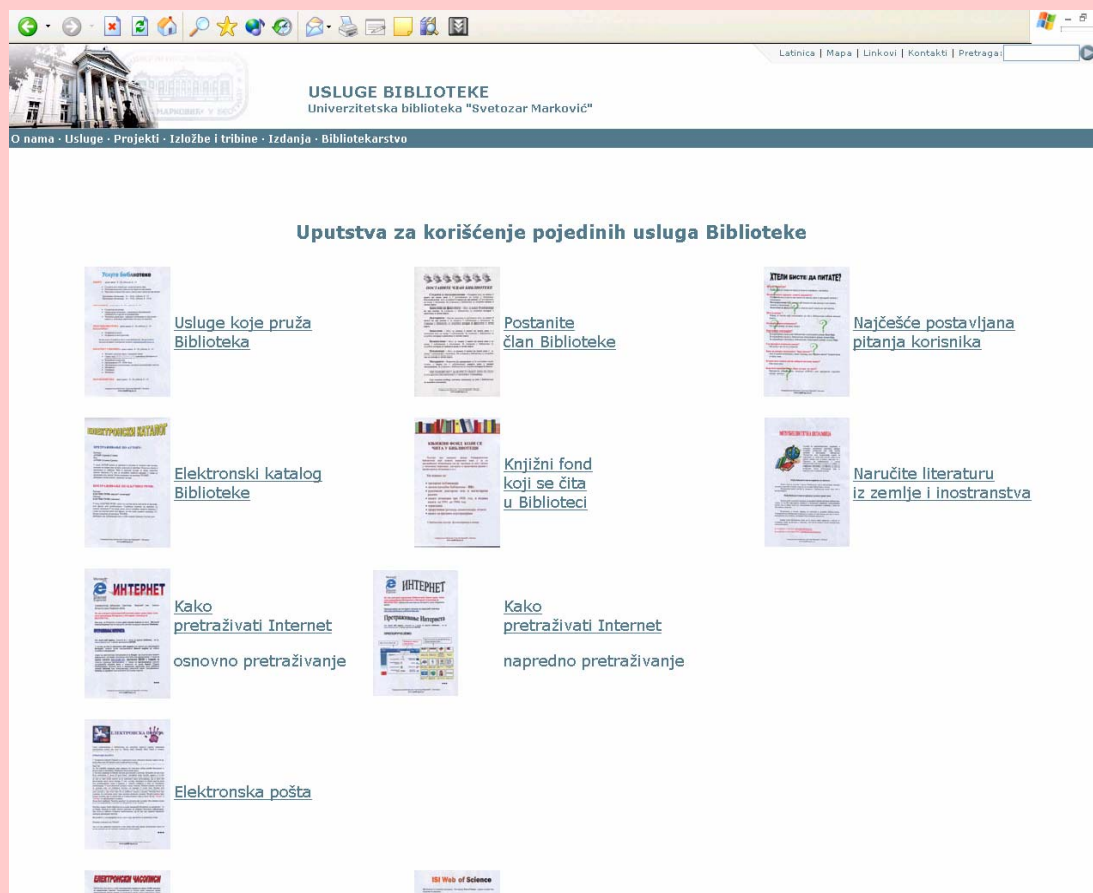

Future

- ❖ There are 8.000 researchers and 75.000 students at the universities in Belgrade.
- ❖ There are 8 librarians at the Department for Scientific Information and Development of Library System at the University Library.
- ❖ The number of electronic resources is constantly increasing and the users have more requests and expectations.

Future

- ❖ Librarians must keep learning.
- ❖ More librarians should be included in user education and electronic services.
- ❖ Educational materials, courses, tutorials and links to e-resources available in Serbia should be produced in electronic form, and be available on websites of all academic and other public libraries.

Instructions for users on the University Library`s website
