

RefWorks -

***“A New Generation of
Information Services”***

Aaron Maierhofer

amaierhofer@csa.com

Inforum 2007

Prague - 22nd May 2007

Why RefWorks?

The Distant Librarian blog - <http://distlib.blogspot.com/distlib/>

- users prefer mobile technology
- users want information to be delivered to them
- users want personalization
- users want convenience
- and **collaboration with/understanding of faculty is vital** in order for libraries to provide the right information

OFF Campus Library Services Conference April – Key note speaker
Marshall Keys

What is RefWorks?

- Web-based Bibliographic and database management tool for anyone in your Organisation

- A Collaborative tool

- A Research management tool

- A unique personnel content management tool

- Cost effective solution managed by the Institution

Primary Functions of RefWorks

- Import Data

- Organizing Managing Data

- Formatting of bibliographies AND manuscripts in different styles
(APA, ISO 690 etc.)

- Export Data

E a s e o f d e l i v e r y

Seamless integration and compatibility with Information providers
– full text, databases, OPACs, other software... .

Direct Export

Information

Here is a selection of references for my research project "Global Warming". Please feel free to add your comments to any of these references. Thank you and Regards Prof. Scharna

Information will be included in the organization's shared area (if applicable) and the About this Shared Folder link.

Reference Sharing Options

- Include in RefWorks Zentral Europa 's shared area

Category

**Your Institutions Central
Web-Page**

RefShare Area for Your Institution.

RefShare is the sharing module of RefWorks. You are for example able to post reading list, E-Learning courses, institutional repositories etc. on to your RefShare-Page. The links below allow you to access folders or databases of information from other RefWorks users at your organization. Clicking on one of these links will take you to this database which will be displayed in RefShare. Depending on the permissions granted to you by the RefWorks user, you can view, print, export or generate a reference list from RefShare. For more information on how to use RefShare, click on Help from the RefShare toolbar.

PubMed Integration

The screenshot displays a PubMed search results interface. At the top, there are navigation tabs: Limits (checked), Preview/Index, History, Clipboard, and Details. Below these, the search field is set to 'Title'. The display format is 'Summary', showing 20 items per page. The search results show 'All: 146' items and 'Review: 15' items. The first result is selected, showing the title 'Gliomatosis cerebri.' and authors 'Krutsay M, Sipos G.' The source is 'Magy Onkol. 2006;50(1):55-8. Epub 2006 Apr 17. Hungarian. PMID: 16617385 [PubMed - in process]'. The interface includes a 'Page 1 of 8' indicator and a 'View' button. A 'ULRICH'S RESOURCE LINKER' logo is visible in the bottom right corner of the search results area.
