

# AquaBrowser Library<sup>®</sup>

search, discover, refine.

Thomas Fiebig – Regional Sales Manager / Bowker (UK)  
INFORUM 2009 – Prague 29<sup>th</sup> May 2009

**My Discoveries<sup>™</sup>**

## *Bowker – The Company*

- ❑ Founded in 1893
- ❑ Subsidiary of the Cambridge Information Group
- ❑ Acquired Medialab – the creators of AquaBrowser – in 2007
- ❑ Flagship products: *AquaBrowser*<sup>®</sup>, *Syndetic Solutions*<sup>®</sup>  
*Global Books in Print*<sup>®</sup> and *LibraryThing for Libraries*<sup>®</sup>
- ❑ Bowker Headquarters based in New Providence, New Jersey, USA
- ❑ European office located in East Grinstead, UK

## Agenda

- Aquabrowser in context**
- Aquabrowser – The Basics**
- Aquabrowser explained**
- Additional Features**
- Live Demonstration of Aquabrowser**
- General Information – Implementation, Pricing....etc.**
- Summary of Benefits**
- Syndetic Solutions**

## *Aquabrowser in Context*

- ❑ **Approx. 80% of all users do not know what they are actually looking for**
- ❑ **The library's main objective is to provide full and easy access to all its resources**
- ❑ **The library must be able to compete with other web destinations**
- ❑ **The traditional OPAC lacks “Search and Discovery” functionality**
- ❑ **Today's users increasingly expect the “Google-Experience”....**
  - **One single search box for all your resources**
  - **Instant relevancy-ranked search results**
  - **Automatic Correction of Typos**

- ❑ Market leading, state of the art visual faceted search solution for your library catalogue
- ❑ Approx. 500 customers worldwide with over 2000 library locations
- ❑ One of our latest high profile customers: *Harvard University*
- ❑ The heart of Aquabrowser is based on three distinct design principles  
**Search.....Discover.....Refine !**
- ❑ Specifically designed for the **End User**
- ❑ Offers the finest user interface available today, without the need to change anything in the way you currently work, your existing ILS or OPAC.

*Aquabrowser – The basics (2)*

- Visually stimulating and easy to use**
- Displays instant relevancy-ranked search results**
- Offers your users suggestions and guidance to help them find what they are looking for**
- Discover and refine functionality ensures that there are no dead ends**
- Recognises typos/spelling mistakes**
- Options such as a ‘Web crawler’ or an integration with a federated search give the users the access to external resources**

- New Search
- Headings List
- Titles List
- My Account
- Other Libraries
- ILL Request
- Rush
- Annex Request
- Search History

## Aquabrowser in detail

- Aquabrowser can work with any kind of Metadata  
(MARC, MAB, UNIMARC, MARCXML, ONIX, OAI etc.)
- Index updated automatically every 24 hours
- Highly customisable
- One single interface for all your resources
- Further resources can easily be integrated into Aquabrowser
- Compatible with virtually any ILS

## Additional Features

- Library decides how relevancy ranking works
- Multilingual Interface at no extra cost
- Can display featured items etc. on the front page if desired
- “Did you mean” function in the event of zero search results being displayed
- Advanced search functionality available <http://lens.lib.uchicago.edu/>
- High quality results from enriched records (Syndetic Solutions, ICE)
- Search term sent to Federated Search Engine (provided the library has got one) in addition to querying Aquabrowser index

# Bilingual Interface

# AquaBrowser Library®

search, discover, refine.

The screenshot displays the AquaBrowser Library interface. At the top, the header includes the logo for 'La médiathèque ESC Lille' and navigation links like 'My account', 'Services', and 'Communities'. A search bar contains the word 'bibliothèque'. Below the search bar, a network diagram on the left side shows relationships between terms like 'manipulation', 'html', 'virtuelle', 'jeux', 'code', 'revue', 'animation', 'université', 'patrimoine', 'numérique', 'centre', 'diplomatique', 'médiathèque', 'document', 'bibliothèque', 'bibliothèques', 'bibliographiques', 'politique', 'library', 'objet', 'répertoire', 'composition', 'symbole', 'script', and 'exécution'. A legend at the bottom left explains the diagram's elements: Association (black square), Translation (green square), Discovery trail (blue square), Spelling variation (grey square), and Thesaurus term (red square). The main content area shows search results for 'bibliothèque', sorted by relevance. The first result is 'Le catalogue de la bibliothèque à l'heure du Web 2.0' by MAISONNEUVE Marc, published in 2008. The second result is 'Bibliothèques et documents numériques' by Papy Fabrice, published in 2007. The third result is 'Usages et pratiques dans les bibliothèques numériques' by Papy Fabrice, published in 2007. The fourth result is 'Patrimoine des bibliothèques de France' by Banques CIC, published in 1995. The fifth result is 'Répertoire des bibliothèques et des centres de documentation' published in 1995. On the right side, there is a 'Select Location' dropdown set to 'All locations', a 'Refine' section with filters for 'Availability' (19 items), 'Library format' (23 books, 5 websites, 5 reference documents, 1 CD-ROM), 'Year' (2005: 3, 2003: 2, 2002: 2, 2001: 3, 2000: 7, 10 more...), 'Subject' (6 items including SOFTWARE, DATA PROCESSING, ANALYSIS, SERVICES MARKETING, TAXATION), 'Author' (8 items including AUBRY Christophe, DEVAUX Philippe), and 'Publisher' (19 items including Ed. Eyrolles, Ed. du Cercle de la Librairie). A legend at the bottom right identifies the result types: Book (red icon), Reference document (orange icon), and Discovery trail (blue icon).

# AquaBrowser Library<sup>®</sup>

search, discover, refine.

**My Discoveries<sup>™</sup>**

*Transforming your library  
forever.....*

# My Discoveries™

Browser Library®  
search, discover, refine.

## Why “My Discoveries” ?

- **My Discoveries allows the user to contribute their own knowledge and opinions about library materials, benefiting patrons and librarians alike.**
- **By reviewing, tagging and networking, the user takes an active role in the catalog.**
- **The benefits to you as a library are twofold:**
  - **your users enjoy the freedom to label and organize their information world**
  - **your users are enriching your catalog with valuable information to make it a better experience for everyone**

# My Discoveries™

Browser Library®  
search, discover, refine.

## How does my “My Discoveries” work ?

- **With “My Discoveries” your users can create any number of lists, add items to them, and organise them in different ways**
- **A key advantage of these lists is that the user can make them public , so that your users can find them within AquaBrowser, just like any other library resource**
- **The possibilities are endless:**
  - Librarians can construct resource lists for current events, popular works or in-library events
  - Professors can create reading lists for their institutions

# My Discoveries™

Browser Library®  
search, discover, refine.

## Is there anything else I need to know?

- Aquabrowser allows LibraryThing tags to be pre-loaded into Aquabrowser
- LibraryThing is a vibrant online community with over 20 Million tags, all ready to be connected to your catalog
- Users can search, discover and refine by these tags too!
- My Discoveries implements a revolutionary concept: Instead of keeping your user content at the library level, your library can share your user content with other institutions from all over the world
- This sharing, like other user behaviour, can be controlled via an administrative interface

### Summary

Illustrated throughout with color photographs, charts, and tables, this textbook introduces undergraduates to the study of economics. Nobel Prize-winning economist Stiglitz and co-author Walsh (U. of California, Santa Cruz) emphasize five core concepts of modern economics: trade-offs, incentives, exchange, information, and distribution. The fourth edition also discusses the results of recent research on behavioral economics. A glossary of terms completes the volume. Annotation ©2006 Book News, Inc., Portland, OR (booknews.com)

### Benefits for the user:

- Enables the user to run high quality searches
- has an attractive, visually stimulating interface
- Offers the “Google-Experience” the user expects
- Search, Discover, Refine concept ensures there are no dead-ends
- Recognizes typos / spelling mistakes

### Benefits for the Systems Administrator:

- is easy to install and configure
- can easily integrate with internal and external data sources
- is compatible with virtually any ILS
- no ongoing maintenance required
- ongoing support provided

### Benefits for your team:

- Lowers pressure on your staff through self-sufficient users
- creates happy users
- increases usage of your collection
- will increase the number of loans you make
- can integrate both internal and external data resources
- get information on user behaviour at the click of a button

### Implementation:

- No major library resources required
- Proven Implementation plan
- Highly customizable.
- Bilingual interface available at no extra cost
- Will take around 8 – 12 weeks to implement

### Pricing Information:

- One-off license fee plus implementation (from €10.000 / €2.500)
- Annual support fee (from €2.000)
- Options such as the federated search module or the web crawler are chargeable options
- All fees and charges are dependent on the size of your library
- Many customisation options are already included in the basic license fee

## Annotations

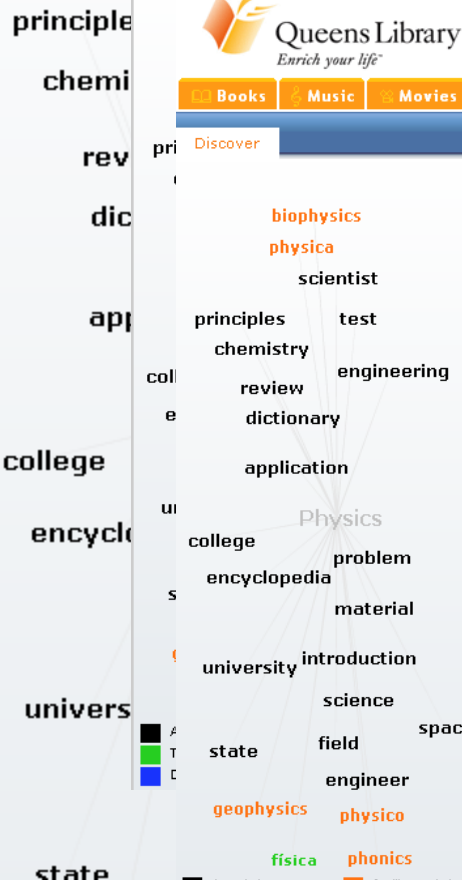

### Summary

These ever popular guides include study tips, test-taking strategies, score analysis charts, and other valuable features. Each book contains between 5 and 20 recently given New York State high school Regents exams. They are an ideal source of practice and test preparation. The detailed answer explanations make each exam a practical learning experience.

### Table of Contents

Preface	V
How to Use This Book	1
Test-Taking Techniques	3
General Helpful Tips	3
How to Answer Part C Questions	8
What to Expect on the Regents Examination in Physics	12
Format of the Physics Examination	12
Topics Covered on the Regents Examination in Physics	14
New York State Physical Setting/Physics Core	15
Topic Outline	15
Question Index	24
Glossary of Important Terms	27
Reference Tables for Physics	38
A. List of Physical Constants	38
B. Prefixes for Powers of 10	39
C. Approximate Coefficients of Friction	39
D. The Electromagnetic Spectrum	40
E. Absolute Indices of Refraction	40
F. Energy Level Diagrams for Hydrogen and Mercury	41
G. Classification of Matter	42

## Table of Contents

# Syndetics ICE

- ❑ Works essentially like the standard version of Syndetic Solutions but makes the contents searchable, i.e finds information that would otherwise have not been found
- ❑ Syndetics ICE Enrichment Elements
  - **Tables of Contents**
  - **Annotations**
  - **Title Link**
- ❑ Just like the standard version of Syndetic Solutions, Syndetics ICE does not require any resources from the library's side as it's a fully hosted solution.

**Summary**

Surprising in both its emotional and intellectual range, *Only What We Could Carry* brings us intimate voices that express not only fear and anger, but humor, compassion, and self-doubt. Family photographs and original works of art add a visual record of life before and within the camps. Posters, political cartoons, and other memorabilia reflect the climate outside the internment camp gates. Copyright © Libri GmbH. All rights reserved.
