Purdue University Libraries Launches New Library Management System, Alma to Streamline Workflows,

The benefits of Alma will include:

- Streamlined workflows resulting in efficient and effective processes.
- Elimination of silos between print and electronic resources
- Improved collection analysis through Alma Analytics and Oracle Business Intelligence

Purdue University Libraries is not only an early adopter of this new system; but it was a co-developer of Alma with Ex Libris, Princeton University, Boston College and University of Leuven (Belgium).

Many Purdue University Libraries faculty and staff have been involved in the planning and implementation of Alma over the last few years to ensure a successful launch.

Further information regarding Alma's key features will be communicated in the coming weeks.

Alma nevznikla ze dne na den

V produkci od léta 2012

V čem spočívá „novost“ ?

- **jednotná správa tištěných, elektronických a digitálních dokumentů**
 - odstranění duplicitních a manuálních činností
 - analytické přehledy
 - globální i lokální spolupráce knihoven
-
- SaaS, z oblaku

Co je cílem aneb proč-proč-proč

- 1. snížit náklady knihovnických činností**
- 2. nabídnout lepší knihovní služby**
- 3. nabídnout nové knihovní služby**

Do Almy se pouští zejména knihovny, které musí škrtat – změna je nezbytná.

Podrobněji na <http://discoveralma.com> nebo na stránkách [Orbis Cascade Alliance](#).

Co je cílem aneb v konkrétních příkladech

- používejte v akvizici PDA
- vyřizujte požadavky na digitalizaci
- aktivujte trialy elektronických zdrojů obratem
- analyzujte dobu a náklady poskytování jednotlivých služeb (fyzická výpůjčka vs. online přístup vs. MVS vs. digitalizace na objednávku)
- zkoumejte překryvy u časopisů a knih
- používejte pro repozitář jednotná metadata
- apod.
