Lunch Evaluation

Marked 1...5 (1 = best, 5 = worst)	Total average
Lunches / dinning hall service	1,98

Only textual responses from English speaking participants are listed below:

What were you pleased most by?

- Excellent program and presentations - Organization - Klementinum
- Good that publishers want to be in the conference exhibition. This is a good way to participants to look for new products and renew their knowings.

What made you upset and what do you think should be avoided?

- Great lectures on Czech language, but texts in proceeding should be also in English and Czech version. Some text , unfortunately I can read again and it is really pity.
- Some presentations were slightly like product reviews.
- Sessions with exclusively speakers in English and information about the language of presentation in the programme.
- As I did not took lunch I can not tell anything about meal but I did not like the dining hall. But this is not primary. Primary is conference and it was very good organized.

Papers (topics) & speakers suggestions for the next year

- Debi Bodden - real guru about e-learning
- About web 2.0 , 3.0
