Best Poster Presentation

(Only 4 posters with the highest score are listed)

- How Librarian Can Make Bibliographic Record More Useful: Put Together WoS, Scopus and SCIndeks Data / Tatjana Timotijevic
- Translation of Scientific Knowledge into Clinical Practice with the Use of Web 2.0 / Vendula Papíková
- Informetric Evaluation of Bulletin EBIB / Aneta Ostrowska
- We Have Evidence, They are Learning!“ How to Enable Students to Become Media Literate Users of Electronic Information Resources / Heike vom Orde

Only textual responses from English speaking participants are listed below.

What were you pleased most by?

- Quality of some presentations and also seeing and meeting old friends, and meeting new acquaintances
- Panel I like most
- Organising.

What made you upset and what do you think should be avoided?

- Lunches were not tasty for this kind of price.
- There was not sometimes enough time for discussion
- Too many commercial presentations
- The social event was, unfortunately, held in too small venue.

Papers (topics) & speakers suggestions for the next year

- Review of new electronic information resources
- George Machovec, if he is available
- Chris Sherman and Sheila Webber
- I liked Sheila's Weber presentation. It was interesting to listen because of interesting examples.
- It might be some interesting theme with conversation with participants, and their experiences
