Jumpstarts

When you create a jumpstart, you are requesting an Ovid page which would usually be part of a session. Jumpstarts offer you the ability to jump into an Ovid session, to:

- Open Database Selection Screen
- Open any Database (or do a multfile search)
- Open the J@O (or YJ@O) Journal List
- Open a link to Browse J by Name (or by Category)
- Open a Journal Table of Contents
- Open a Saved Search or SDI
- Open a Full Text Article
- Open Books (or an individual Book)
- Open Graphics and Images

O V I D

energize your thinking™

Jumpstarts to Journal TOC

Probably the most frequent use of a jumpstart

For example a list of Thames Valley University E-journals...

Title	Years	Availability
Journal for Nurses in Staff Development - Available via Journals@Ovid	98/-	Athens P/W required for access inside & outside TVU
Journal of Adolescence	02/-	Not available outside TVU
Journal of Advanced Nursing	02/-	Athens P/W required for access outside TVU
Journal of American Studies	97/02	Not available outside TVU
Journal of Applied Sport Psychology	01/-	Athens P/W required for access outside TVU
Journal of Behavioral Medicine - Available via Journals@Ovid	96/-	Athens P/W required for access inside & outside TVU
Journal of Cardiopulmonary Rehabilitation - Available via Journals@Ovid	96/-	Athens P/W required for access inside & outside TVU
Journal of Cardiovascular Nursing - Available via Journals@Ovid	98/-	Athens P/W required for access inside & outside TVU
Journal of Child Language	97/02	Not available outside TVU

What's in here ?

Jumpstarts to J@O or Databases

A page which can take you to databases, journals or books and offers help and documentation all in one place...

The screenshot shows the EIRA website interface. On the left is a navigation menu with categories like 'Alla resurser', 'Databaser', 'Tidskrifter A-Z', 'Tidskrifter ämnesvis', 'Utbildningsmaterial', 'Övriga resurser', and 'Hem'. The 'Tidskrifter A-Z' category is selected. The main content area is titled 'Tidskrifter A-Z' and features a navigation bar with letters A through Z. Below this, a list of journals is displayed under the heading 'A | BACK TO TOP (26 Journals)'. Each journal entry includes the journal title and a link to 'about this journal'.

A BACK TO TOP (26 Journals)

phase is initially papular and progresses through stages of vesiculation, pustulation, umbilication (a depression at the apex of a lesion) and crusting. In some patients the early lesions become ulcerated. The rash often begins on the face and is distributed on the head, trunk and extremities. Many patients have initial and satellite lesions on their palms, soles and extremities (see [Figure](#)). (For additional photographs go to <http://research.marshfieldclinic.org/crc/monkeypox.asp>). Unlike smallpox, which tends to have lesions at similar stages of evolution, rashes caused by monkeypox tend to occur in crops.³ Also, lymphadenopathy is more common with monkeypox.

Figure 1. Lesions on the hand of a child with human monkeypox after being bitten by a pet prairie dog. Photo: Marshfield Clinic

[\[Help with image viewing\]](#)

[\[Email Jumpstart To Image\]](#)

Box: CDC: interim case definition for human monkeypox*

Clinical criteria

- Rash (macular, papular, vesicular or pustular; generalized or localized; discrete or confluent)
- Other signs and symptoms
 - Temperature $\geq 38.3^{\circ}\text{F}$ ($\geq 37.4^{\circ}\text{C}$)
 - Headache
 - Backache
 - Lymphadenopathy
 - Swollen throat
 - Cough
 - Shortness of breath

Epidemiologic criteria

- Exposure to an exotic mammalian pet (obtained on or after Apr. 15, 2003, with clinical signs of illness; eg., conjunctivitis, respiratory symptoms and/or rash)
- Exposure to an exotic mammalian pet (or to an animal clinical signs of illness) that has been in contact with a case of monkeypox either in a mammalian pet or a human
- Exposure to a suspect, probable or confirmed human case

Laboratory criteria

Box 1. No caption available.

Password <input type="password"/>	Password <input type="password"/>

Exclude User ID/Password from Jumpstart URL

Exclude Personal Account Name/Password from Jumpstart URL

Hints:

- Creating a jumpstart will provide a URL shortcut to a TOC, Saved Search, Issue List, Full Text article, or an image from a Full Text article.
- To bypass the main login screen, enter User ID/Password to embed your user ID and password into your jumpstart.
- To bypass the Personal Account login screen, enter Personal Account Name/Password to embed your account name and password into your jumpstart.
- Please note that embedding account information poses a substantial security risk as ids and passwords will be displayed clearly both on screen during the creation process and in the jumpstart URL. You may choose to exclude this information by checking the appropriate box(es).

Saving Searches and Alerts

Ovid AutoAlerts

AutoAlerts (SDIs) are searches which are saved permanently for a particular database and are executed whenever the specified database is updated. When they are executed, newly-added documents which match search criteria are emailed to a designated recipient. See "help" for more details.

Email AutoAlert (SDI) Search Output

Recipient's Email Address:

Email Subject:

Enter complete email address of each desired recipient using the format: username@hostname. Separate multiple email addresses with commas. Do not use any spaces between the addresses.

AutoAlert (SDI) Output Format

energize your thinking™

Multifile Searching and Deduplication

- Databases may have similar coverage and some overlap
- Databases may have different vocabularies, fields, limits
- Searching databases together saves time

Multifile searching and deduplication is available by default but can be configured

- User – eliminates duplicates from the result but can be more difficult to search

Support: can configure options

Multifile Searching and Deduplication

- Linking out and LinkSolver
- Search History, SDI's and Alerts
- Cross database searching and Deduplication

Jumpstarts in WebSPIRS 5

- **3 common types of WebSPIRS jumpstarts:**
 - Database jumpstart
 - Multifile jumpstart
 - Jumpstart search
- **Base URL:** <http://web5s.silverplatter.com/webspirs/start.ws?>
- “name=value” pairs for WebSPIRS 5
 - customer=<organisation_name>
 - language=<es | fr | de | en>
 - databases=<database_shortcode>
 - search=<search>
 - username=<username>*
 - password=<password>*

**Can be used when there is no automatic login*

Example: Pfizer (Germany) Jumpstart to Medline

energize your thinking™

The screenshot shows a Microsoft Internet Explorer browser window displaying the Pfizer website. The browser's address bar shows the URL: <http://www.pfizer.de/index?sid=91xDfbcBHz0114gfbpI3NoXvwQC1948P>. The Pfizer logo and tagline "Life is our life's work." are visible at the top. A search bar is present in the top right corner.

Overlaid on the Pfizer website is a search interface for ERLWebSPIRS 5.03. The browser's address bar for this window shows: <http://web5.silverplatter.com/webspirs/start.ws?customer=pfizer&language=de&databases=MEDS>. The search interface includes a search box, a search button, and a list of search options. A green box at the bottom contains the URL: <http://web5.silverplatter.com/webspirs/start.ws?customer=pfizer&language=de&databases=MEDS>.

Example: Wageningen University “Desktop Library”

The text of this license can be viewed in English, French, German, Italian, Japanese, Korean, Spanish, and Swedish.

WebSPIRS Search Hints
Which Search?

- Use **Search** for a search as simple or complex as you like.
- Use **Advanced** to combine search terms and specific fields.
- Use the **Index** to locate specific terms within a database.

If available with the databases you are searching:

- Use **Suggest** (on the **Search** page) to get suggested alternatives to your search terms.
- Use the **Thesaurus** to search using the database's controlled vocabulary.
- Use the **Database Table of Contents** to look up and display full text records.

If you perform a complex search, or the same search regularly, save your **Search History** to use it in future sessions.

Tips
Pressing **Enter** is like clicking the main action button (such as **Search**, **Go to Term**, or **Print**).
Full Text Options next to a record means it has links to easy ways to see the full text

Search Examples

A search like this:	Finds records containing:	A search like this:	Finds records containing:
cat	the word "cat" in any field	travel or tourism	either or both terms in any field
2000 Olympics	the phrase "2000 Olympics" or "Olympics"	2000 adj Olympics	the phrase "2000 Olympics" in that order in any field

Internet

First Screen: **Thesaurus** screen

The screenshot shows the 'Thesaurus' screen in a Microsoft Internet Explorer browser. The browser title is 'Ovid Technologies - WebSPIRS 5.03 - Microsoft Internet Explorer'. The address bar shows 's.silverplatter.com/webspirs/start.ws?customer=pieter&databases=PY'. The page has a red header with 'about ERL WebSPIRS 5' and navigation links for 'Search', 'SDI', 'Database Guide', 'Help', and 'Logout'. Below the header, there are tabs for 'Search', 'Advanced', 'Thesaurus', 'Index', and 'Search History'. A search input field contains 'How do I ...?' and buttons for 'No search limits set', 'Change', and 'Clear'. A 'Term:' input field is followed by a 'Go To Terms' button. Below this, there are controls for 'Change Display', 'View databases being searched', 'Clear Marked', 'Search Marked', and 'Explode Marked'. A section titled 'By 2 Terms' contains instructions: 'Select the check box next to one or more subject headings:', 'Click **Search Marked** to search for the marked headings.', 'Click **Explode Marked** to search for the marked and narrower headings.', and 'Click on a subject heading to display broader, narrower and related subject headings.'. Below the instructions is a table with two columns: 'Term' and 'Subject Heading'. The table lists 'HAPPINESS' with a checkbox and a link to 'Happiness', and 'HAPTIC' with a checkbox and a link to 'Haptic Perception, s... Cutaneous Sense'. Two black circles highlight the 'By 2 Terms' control and the 'Term' column header. Two arrows point from these circles to text boxes on the right.

- Use the **Thesaurus** to search using the database's controlled vocabulary.
- Use the **Database Table of Contents** to look up and display full text records.

If you perform a complex search, or the same search regularly, save your **Search History** to use it in future sessions.

Tips

Pressing **Enter** is like clicking the main action button (such as **Search**, **Go to Term**, or **Print**). **Full Text Options** next to a record means it has links to easy ways to see the full text

Search Examples

A search like this:	Finds records containing:	A search like this:	Finds records containing:
cat	the word "cat" in any field	travel or tourism	either or both terms in any field
2000 Olympics	the phrase "2000 Olympics" or "Olympics 2000" in any field	internet and sales	both terms in the same record in any field
child*	child, children, childhood, and so on	smith-n*	the name N (or N L or Nancy, and so on) Smith. For Authors, click the Author button.
wom?n	woman or women

WebSPIRS™ 5.02 Quick Reference

Note: A caption in a box with a bar like this — describes the page you open with that captioned WebSPIRS button. Other boxes describe actions on this Search page.

- Use a form to build complex searches easily
- Enter a word or phrase then click Start Search
- Find and choose subject terms from this database
- Increase/decrease size of bottom frame
- Browse indexes and choose words to search
- Specify your display preferences
- Display a summary of your past searches
- Click to see the complete record
- Click to see where the document is available
- An 'x' indicates that record is available
- Get help with a specific database
- Get help with WebSPIRS
- Focus your search with database limits
- Select new or extra databases to search
- Email the records retrieved by your searches
- Save the records retrieved by your searches
- Print the records retrieved by your searches
- Click to see where to find related information
- This area shows the results of your search

Type in your search like this to find:

A term: cat
 A phrase: Y2K compliant
 Use parentheses to clarify the relationship: (dog and cat) in TI
 is not the same as dog and cat in TI

Use these symbols to find more records:

Use 1 of these between 2 terms, and the results will:

and	...include both terms	cat and dog
or	...include either or both terms	cat or dog
not	...not include the second term	cat not dog
adj	...include both terms, in the specified order	puppy adj love
with	...have both terms in the same field	cat with dog
near	...include both terms in the same sentence	cat near2 dog

Quick Limits

• Default Quick Limits:

- Defaults mainly based on Publication Year only
- Options: any combination of non conflicting limits

The screenshot shows the Ovid Technologies WebSPIRS 5.03 search interface. The search limits section is circled in black, showing the following options:

- No search limits set
- Find Terms:
- Limit Search to:
 - Publication Year greater than 1997

An arrow points from this section to a larger, detailed view of the search limits controls on the right.

Important: By clicking on "Search", you are agreeing to accept the terms of the Ovid Technologies databases and proprietary search-and-retrieval software. The text of this license can be viewed in English.

WebSPIRS Search Hints
Which Search?

- Use **Search** for a search as simple or complex as you like.
- Use **Advanced** to combine search terms and specific fields.
- Use the **Index** to locate specific terms within a database.

If available with the databases you are searching:

- Use **Suggest** (on the **Search** page) to get suggested alternatives to your search terms.
- Use the **Thesaurus** to search using the database's controlled vocabulary.
- Use the **Database Table of Contents** to look up and display full text records.

If you perform a complex search, or the same search regularly, save your **Search History** to use it in the future.

Search Examples

A search like this:	Finds records containing:	A search like this:	Finds records containing:
cat	the word "cat" in any field	travel or tourism	either or both terms in any field
2000 Olympics	the phrase "2000 Olympics" or "Olympics 2000" in internet and sales		both terms in the same record in any field

energize your thinking™

The screenshot displays a Microsoft Internet Explorer browser window showing the ERL WebSPIRS 5.03 interface. The browser title is "Ovid Technologies - WebSPIRS 5.03 - Microsoft Internet Explorer" and the address bar shows "http://web5.silverplatter.com/webspirs/start.ws?language=en&custom".

The main content area is titled "about ERL WebSPIRS 5" and includes a search bar and navigation links: "Search | SDI | Alerts | Database Guide | Help | Logout".

On the left side, there is a section titled "Alerts" with the text "To see alerts, type your email address: phow" and "Select the check boxes next to the alert names you wish to subscribe to". Below this is a list of alert categories:

- [FishSmallEnterprise](#)
- [FisheriesSocioeconomics](#)
- [InlandFisheries](#)
- [FishIT](#)
- [FishRegulation](#)
- [FisheriesStatistics](#)
- [IUUFishing](#)
- [SmallScaleFisheries](#)
- [Aquaculture](#)
- [organicagriculture](#)
- [urbanagriculture](#)
- [zerotillage](#)

The right side of the browser window shows a detailed view for "Alerts Details for: SmallScaleFisheries". The search criteria are: "Search: ((fisher* not industrial* not australia* not Europ* not north america* not japan*) near ((small scale or artisanal) in de,ti,ab)) and (py>2001)". The databases searched are: Agris, Agricola, CAB Abstracts, EconLit, Tropag & Rural. The date created is 29 Sep 2003 and the date last run is 05 Feb 2004.

Cross database searching and Deduplication

- Selecting multiple databases

The screenshot shows a web browser window titled "Ovid Technologies - WebSPIRS 5.03 - Microsoft Internet Explorer". The address bar shows the URL "http://web5.silverplatter.com/webspirs/start.ws?language=en&custom". The page header includes "about ERL WebSPIRS 5" and "Help Logout". Below the header, there are buttons for "Available Databases", "Clear Selected Databases", "Suggest Databases", and "Start Searching".

Instructions on the page state: "Click check boxes to select the databases to search, then click **Start Searching**. To see a list of suggested databases, click **Suggest Databases**." and "If available, click [expand icon] to expand and [collapse icon] to collapse each set of databases. To find out more about a database, click [info icon]."

The main content area lists several database categories with checkboxes for selection:

- Current contents Weekly**
 - CC Search(R) 7 Editions Week 7 2004/02/11-2004/02/17
 - CC Search(R) 7 Editions Week 6 2004/02/04-2004/02/10
 - CC Search(R) 7 Editions Week 5 2004/01/28-2004/02/03
- Current Contents Archives**
- MEDLINE**
 - MEDLINE(R) In-Process & Other Citations Feb Wk 2 2004/02
 - SilverPlatter MEDLINE(R) February Week 2 2004/02
 - SilverPlatter MEDLINE(R) February Week 1 2004/02
 - SilverPlatter MEDLINE(R) 2003-2004/01
 - SilverPlatter MEDLINE(R) 2001-2002
 - SilverPlatter MEDLINE(R) 1999-2000
 - SilverPlatter MEDLINE(R) 1996-1998
 - SilverPlatter MEDLINE(R) 1993-1995
 - SilverPlatter MEDLINE(R) 1989-1992
 - SilverPlatter MEDLINE(R) 1984-1988
 - SilverPlatter MEDLINE(R) 1977-1983
 - SilverPlatter MEDLINE(R) 1966-1976
- Scifile**

Cross database searching and Deduplication

The screenshot shows the SilverPlatter WebAdmin 5.03 interface in a Microsoft Internet Explorer browser window. The browser address bar shows the URL: http://sladmin.silverplatter.com:4416/wascripts/index.spp?erserver=sl. The page title is "SilverPlatter WebAdmin 5.03 build 1015 for ERL 5 [sladmin/cdnet] - Microsoft Internet Explorer".

The interface has a red header bar with "ERL™ WebAdmin" on the left and "sladmin - cdnet" on the right. Below the header, there are buttons for "Save", "Preview Menu", and "Cancel".

The main content area is divided into two columns:

- Headings:** A list of headings including "Current contents Weekly", "Current Contents Archives" (selected), "MEDLINE", "Serfile", "Psychinfo", "Sociological Abstracts", "ERIC", "MLA", "Linguistics and language behavior abstr", and "Int. Bibliography ... Social Sciences". Below the list are "New" and "Delete" buttons.
- Databases:** A list of databases including "ATLF - ATLA Religion Database+ATLAS", "BHAA - Bibliography of the History of Art", "BX - Biological AbstractsPart 1", "CCOC - CC Search(R) 7 Editions Week 5", "CCON - CC Search(R) 7 Editions Part 1" (selected), "ECON - EconLit", "ERIC - The ERIC Database", "IBSS - International Bibliography of the Socia", "LL - LLBA", and "MEDS - SilverPlatter MEDLINE(R)". Below the list is the instruction: "Hold the CTRL key down to select multiple items".

At the bottom of the interface, there are input fields for "Heading:" (containing "Current Contents Archives"), "Description:", and a checked "Expandable:" checkbox.

The browser's status bar at the bottom shows "Internet" and the system clock "2:00:2001".

Settings for Deduplication Internet

Using WinSPIRS

WinSPIRS may remain first choice for many users.

WinSPIRS can be used to access any ERL server

Two important features that WinSPIRS users will lose but WebSPIRS user will enjoy:

- SDI' / AutoALERTS
- no Deduplication of records after cross database searches

Questionnaire

- **Questions before we confirm access:**
 - Do you like to have automatic login
 - Do you like to have a logout URL
 - Do you like to receive the jumpstarts?
 - Any preferences for the citation display?
 - Any links to be set-up?
 - Shall we enable SDI's/Alerts?
 - Shall we create a structured menu?
 - Do you wish to be contacted/informed about anything
- **Please send us filled in questionnaire**

Questionnaire

Migrating to Direct Online Access for the SilverPlatter ERL platform

Please find below a questionnaire with the most common configuration options. If you do not require any changes, please indicate **NO**. If you do require changes, please indicate **YES** and choose the new configuration options from the list below and you will be contacted to discuss your requirements. For existing ERL sites please read the "**Notes**"

Organisation Name:

Contact Name:

Email address:

Tel. Number:

1. What is your preferred interface? WebSPIRS 4 WebSPIRS 5 Both
2. What is your preferred language? English German French Spanish
3. What is your preferred authentication mechanism?
 - IP address authentication, please specify IP ranges:
 - [http-referrer](#) authentication (no access control by WebSPIRS), please specify URL:
 - [username/password](#) authentication
4. Do you want to implement a link to your WebOPAC, or Document ordering system? Yes No
Note: existing ERL sites, please send us your [.xml](#) files from [/servlet/cfiles](#)*
5. Do subscribe to full text want to use the SilverLinker integration technology? Yes No
Note: existing ERL sites, please send us your [.FLTR*](#) files from [/servlet/cfiles](#)*
6. Do you want the SDI or Alert (public SDI's) feature to be enabled? SDI: Yes No
Alert: Yes No
Note: [existing ERL sites](#): only WebSPIRS 4.3 SDI's can be migrated online.
Note: search histories can be migrated online for WebSPIRS 4.3 and for WebSPIRS 5.

Ovid Web Gateway – Online set-up questionnaire*

*Please complete 1 questionnaire for each group

Ovid provides comprehensive features and administration tools to meet the needs of the customer. Some of these tools and features are available immediately; others can be activated after consultation with Ovid's support team.

The purpose of this questionnaire is to allow you to indicate your preferred settings prior to the start of your subscription. Should you have any questions or if you require a demonstration of any of the features listed in this questionnaire please contact your Ovid representative: <sales rep>, <telephone>, <email> or Ovid's Technical Support team: <name if applicable>, <telephone>, <email>.

Customer Name:

Contact Name:

Email address:

Telephone:

1. Group, Users and PIN's:

Ovid Technical Support advises to use one group per organization. In case you require groups with different settings, we advise to create 1 group per location, member, institute or faculty. We kindly request you to fill out a separate questionnaire per group. In case you require additional groups later they can always be added by Ovid Technical Support.

- o Please specify the preferred group/user name (max 12 characters):
- o Please specify a short description for this group:

Truncation and Wildcards on SP

- **Using Truncation and Wildcards**

- Use truncation or wildcards to retrieve variations of your search term.

- **The TRUNCATION symbol (*) substitutes for a string of zero or more characters. For example, *cat** retrieves *catatonic*, *catatonia*, *category*, etc.**

- **The WILDCARD symbol (?) substitutes for one character or none. For example, the search *m?cdonald* retrieves both *mcdonald* and *macdonald*.**

- You can use truncation or wildcards anywhere in your search term, except as the first character.

Some Benefits of Electronic Journal Access

- **Accessibility**

- In Every Room in the Library
- 24 hours a day
- Simultaneous access

- **Speed**

- Electronic is faster than print issue circulation

- **Ease-of-Use**

- Automatically informed with TOC or Search Alerts

- **Usability of Content**

- Powerful fulltext searchability

- **No-archiving-space needed for back files**

**Perpetuate Access for
all LWW journals**

Command Line Syntax (Ovid)

x.yy.

Searches for word or phrases x in field yy

x.yy,zz.

Searches for word or phrases x in field yy OR zz

Truncation and Wild Cards on Ovid

Unlimited Truncation: “\$” or “:”

Disease\$ retrieves Disease, as well as diseases, diseased, etc.

Use unlimited Truncation with care!

rat\$ would retrieve rat and rats, but also rate, rationalize, ratify, etc.

Limited Truncation: “\$n”

Dog\$1 retrieves Dog and dogs but not dogma

Truncation and Wild Cards on Ovid

continued

Mandated Wild Card: “#”

Can be used within or at the end of a query word to substitute for one required character.

Wom#n would retrieve woman and women

Dog# would retrieve dogs but not dog

Optional Wild Card: “?”

Can be used within or at the end of a query word to substitute for one or no character.

Colo?r would retrieve Color and colour

You cannot use “?” wild card with only one letter in front of the wild card.

Editors: Alex M. Davison, J. Stewart Cameron, Jean-Pierre Grunfeld, David N.S. Kerr, Eberhard Ritz, Christopher G. Winearls

Publisher: Oxford University Press, 1998

Chapter: The patient with diabetes mellitus

Passage: ... the incidence of nephropathy. The time to development of microvascular complications is not influenced by prepubertal duration of the disease (Kostraba et al. 1989), and nephropathy develops more slowly in individuals who develop diabetes before the age of 10 than in those diagnosed after puberty (Krolewski et al. 1985). The highest incidence (44 per cent) is seen in subjects who develop diabetes between the ages of 11 and 20 years (Kofoed-Enevoldsen et al. 1987). Patients who develop diabetes after the age of 20 have a lower cumulative incidence of nephropathy, at around 35 per cent. Some authors (Krolewski et al. 1985), but not others (Kofoed-Enevoldsen et al. 1987), have found that current age influences the incidence of proteinuria, with maximum risk in the age ...

□ 3. **Source:** *Oxford Textbook of Medicine*

Editors: David A. Warrell, Timothy M. Cox, John D. Firth, Edward J. Benz

Publisher: Oxford University Press, 2003

Chapter: The kidney in systemic disease

Passage: ... Diabetes mellitus and the kidney R. W. Bilous Introduction Diabetic nephropathy is the commonest single cause of endstage renal failure (ESRF) requiring renal replacement therapy in the United States, and the second most common in Europe and Japan. The incidence is increasing, largely because the incidence of diabetes itself is reaching what some have termed epidemic proportions, this growth being greatest in the developing world. Definition Nephropathy is a clinical diagnosis based upon the finding of proteinuria in a patient with diabetes and in whom there is no evidence of urinary infection. Conventionally, the level of proteinuria for a diagnosis of 'clinical nephropathy' or 'overt nephropathy' is 0.5 g/day, which is roughly equivalent to a urinary ...

Score: ★★★★★

□ 4. **Source:** *Diseases of the Kidney and Urinary Tract*

Editors: Robert W. Schrier

Publisher: Lippincott Williams & Wilkins, 2001

Chapter: Diabetic Nephropathy

Passage: ... Diabetes Microalbuminuria predicts renal disease in diabetic Pima Indians (76), a group that tends to acquire type 2 diabetes at a relatively young age. However, in more elderly type 2 diabetic patients, the incidence of microalbuminuria and proteinuria (33,37,77,78,79 and 80) predicts an incidence of ESRD higher than the 8% to 10% of type 2 diabetic patients in whom uremia ultimately develops (7,32,33 and 34,37). This may have multiple explanations. First, microalbuminuria is a strong predictor of increased cardiovascular mortality in type 2 diabetes (33,35,36). Thus, many patients die before uremia supervenes. Second, because the nature of the underlying renal injury is more heterogeneous in type 2 diabetic patients (70) (see later), it is not surprising that the ...
