CSA Illumina

CSA Illumina is designed to provide a simple, more user-friendly approach to searching for novice users while maintaining powerful options for users who require them. The interface provides access to more than 100 databases published by CSA and its publishing partners.

Databases & Collections

CSA Illumina provides access to more than 100 full-text and bibliographic

Hot Topics

Over 50 free guides to current issues in Arts & Humanities, Natural Sciences, Social Sciences, and Technology.

[Complete Listing of Hot Topics](#)

New Hot Topic

[Tsunamis and the International Response: Economic, Social and Environmental Dimensions](#)

An interdisciplinary overview of the on-going recovery, examining links between environmental, economic and technical issues. Discusses how ecosystem disruption hinders recovery and how future devastation may be alleviated by coordinating relief operations and integrating international satellite, global information, and communication networks.

- Education (23 journals)
- Psychology (30 journals)

- Nursing and Health (24 journals)
- Urban Studies and Planning
(11 journals)
- Management & Organization
Studies
(36 journals)
- Material Science (15 journals)

BioOne Fulltext

65 high Quality peer-reviewed
BioScience Research Journals
and e-books

Two methods of access:

- Search the bibliographic database and link to the Fulltext
- or browse the journals

GeoScienceWorld Millennium Collection

- High impact Geoscience publications
- 30 Fulltext electronic journals
- Peer-reviewed
- Hosted on the HighWire Press Platform
- Only in combination with access to the database GeoRef

MULTI-SEARCH

Federated Searching solution

NEW

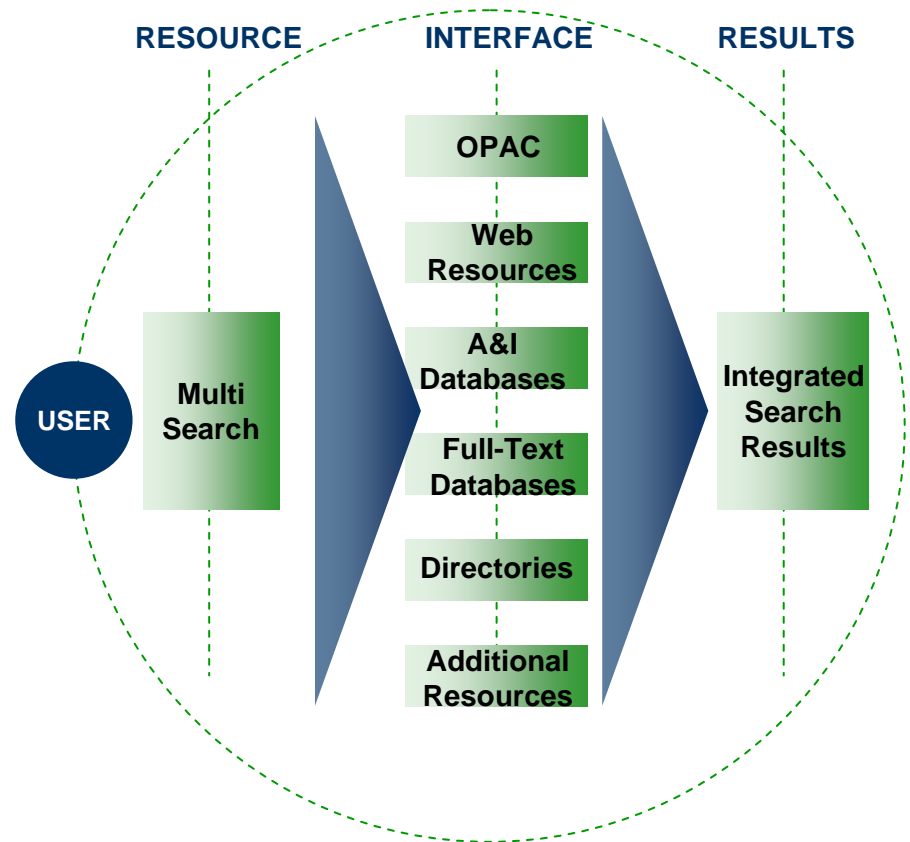

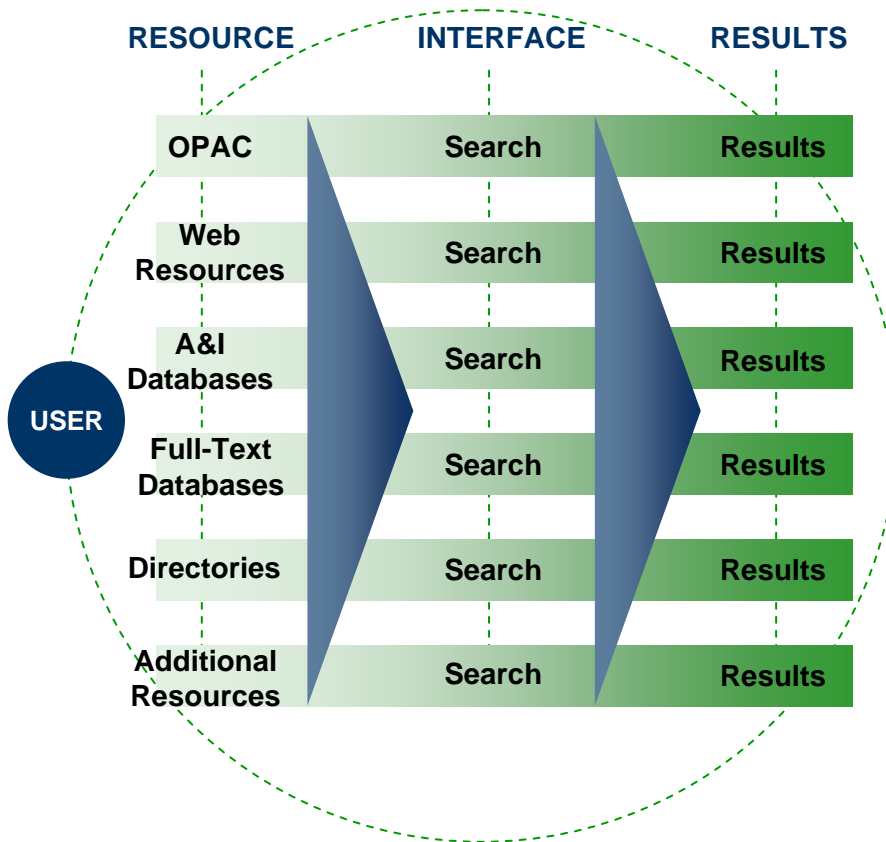

- Use the CSA Illumina Platform
- Simultaneous searching across the libraries content sources
- Results are easy to view and use
- Low cost solution for system integration
- Save on Staff time for implementation and updates

The Need for MultiSearch

PROBLEM: Users need to interface a variety of information sources, each with its own search protocols and search results reporting

SOLUTION: MultiSearch provides common search interface and results across a wide variety of information sources
