

***Evaluation of scientific work
through education in
University Library "Svetozar
Markovic" in Belgrade***

Aleksandra Popovic

Dr. Stela Filipi-Matutinovic

University Library

"Svetozar Markovic", Belgrade, Serbia

Inforum 2009.

- ❖ Scientific work in Serbia is valued through citation and point rating published results published in scientific journals, symposiums, monographs, etc.

- ❖ In 2001 publishing in the journals from JCR list became a criterion for financing researchers by the Ministry of Science

Quantification of scientific results

Articles published in international scientific journals	M20	Article in international high level journal	M21	8 points
		Article in international middle level journal	M22	5 points
		Article in international journal	M23	3 points
		Article in international journal certified by special commission	M24	3 points

- ❖ 2005: 7 courses with groups of academic librarians, 120 participants (Citation in SCI data bases)
- ❖ 2008: 14 courses with groups of academic librarians, researchers, professors, students and most important groups of doctoral students, near 500 participants
- ❖ 2009: panel discussion with 30 participants (academic librarians) and in the future plan for at least 200 doctoral students
